NCR provides this highly customizable and cost-effective wireless banking solution through a special partnership with MShift®.

KEY BENEFITS

- **Highly Customizable** – Your financial institution dictates all the features and the look and feel of your wireless banking application.
- **Seamless Integration** – Seamlessly integrated with your existing online banking application.
- **End-to-end Security** – Applications are fully secure, using industry standard technologies and security certificates.
- **Minimum Time to Market** – Applications are built and deployed within days.
- **Flexible and Scalable** – Allows you to expand your wireless services as necessary.

DEVELOPMENT

Your customer wireless banking application will be developed according to your specifications. You can choose from a wide range of features, or accept the basic ones, such as wireless access to account balances, balance transfer between accounts, transaction histories, and bill payer.

DEPLOYMENT

NCR will deploy and host your wireless banking application and provide on-going support, maintenance, and upgrades, as well as detailed monthly reporting and real-time administrative access for your staff.
