

eCommerce Solutions

ATTENTION:

All NCR eCommerce Customers

SUBJECT:

Multi-Language Banking Survey **Extended Through October 12, 2007**

As the NCR eCommerce Solutions organization continues to develop and implement new and innovative technologies, we also strive to carefully consider all our customers' product concerns and requests in a timely manner. Recently, we have received various inquiries about providing our **Bank By Phone** and **Internet Banking** solutions in multiple languages – specifically English and Spanish. As a result, we would like all our customers' input regarding these pending solutions.

Below is a link that launches a brief survey to poll your input. Your participation will help us determine the demand for multi-language banking services across our user base, as well as help identify all development and business activities that must occur to implement these features.

If you haven't already completed the survey, please take a few minutes to do so. For your convenience, the survey has been extended through Friday, October 12, 2007. Afterwards, we will notify you of the results.

Thank you!
