

Here's a solution to your New Year's resolution... GET CERTIFIED!

Start your New Year off right by becoming an NCR Certified Point-of-Sale technician! Since it's a new quarter, you're re-eligible to take either the NCR or IBM Point-of-Sale exam.

Good news... when you re-take the exam, you'll notice several improvements based on CE feedback including:

- o Dividing the original Retail Point-of-Sale exam into two separate certification exams:
 - NCR Point-of-Sale (#42057)
 - IBM Point-of-Sale (#42061)
- o This division of the original exam allows you to focus on the point-of-sale product line **you** know the best.

It is now EASIER to enroll in either Point-of-Sale Basic exam. Just simply:

- o Click [here](#) to access the NCR Point-of-Sale Basic Certification Exam.
- o Click [here](#) to access the IBM Point-of-Sale Basic Certification Exam.
- o When you are ready to begin either exam, scroll to the bottom of the page and click "Register."

Before you begin the exam, here are a few HELPFUL HINTS:

- o Take the time to review the topic outline under the "Course Description."
- o You have two hours to complete this exam. Take your time and answer every question as best as you can.
- o For assistance, be sure you have all necessary materials nearby, such as your Point-of-Sale training material.
- o Please note: You are allowed only one attempt at this Certification exam **per quarter**. Make this attempt count!

Now is YOUR CHANCE to join the 400+ CEs who have become NCR Certified! To see a list of Certified CEs, click [here](#) to see the Hall of Fame.

Questions?
