

Dear XXFirstNameXX,

I believe that our people are the NCR brand. To reinforce our brand and show pride in NCR's customer services expertise, I want our Customer Engineers to have the option of wearing NCR logo apparel at the customer's place of business.

Obviously, there are some situations when wearing an NCR logo could heighten security risks, such as while working on ATMs. Therefore, wearing logo apparel will be optional.

NCR Procurement has already identified possible apparel vendors. To ensure that the apparel selected reflects input from our global CEs, you are asked to complete a simple, five-question survey. The questions are designed to provide the selected vendor with information to allow for a smooth initial delivery. In addition, your opinions on the styles/colors of the apparel are important.

Click on the link below to access the survey. Your response is needed no later than March 8, 2007.

Thank you,

Chris Wallace, Senior Vice President
NCR Worldwide Customer Services
